ONLINE EVALUATION RESOURCE LIBRARY

<http://oerl.sri.com/home.html>

The image shows a screenshot of the OERL website interface. At the top, there is a yellow banner with a lighthouse icon and the text "OERL : Online Evaluation Resource Library". Below this, there is a navigation bar with four tabs: "OERL" (yellow), "plans" (purple), "instruments" (dark purple), and "reports" (green). On the left side, there is a vertical menu with the following items: "overview" (white), "Programs" (grey), "CCLI" (yellow), "CLT" (yellow), and "ITEST" (yellow). The main content area on the right contains a welcome message.

OERL

plans

instruments

reports

Welcome to OERL, the Online Evaluation Resource Library. This library was developed for professionals seeking to design, conduct, document, or review project evaluations. The purpose of this system is to collect and make available evaluation plans, instruments, and reports for NSF projects that can be used as examples by Principal Investigators, project evaluators, and others outside the NSF community as they design proposals and projects. OERL also includes professional development modules that can be used to better understand and utilize the materials made available.

GPSVISUALIZER.COM

GPS Visualizer: Do-It-Yourself Mapping

GPS Visualizer is a **free**, easy-to-use online utility that creates maps and profiles from GPS data (tracks and waypoints, including GPX files), driving routes, street addresses, or simple coordinates. Use it to see where you've been, plan where you're going, or visualize geographic data (business locations, scientific observations, events, customers, real estate, geotagged photos, "GPS drawing," etc.).

DIAGRAMMER

<http://www.duarte.com/diagrammer>

Flow: Linear

Shapes flow linearly but not necessarily straight.

Flow: Loop

Shapes flow creating a closed loop.

Flow: Merge/Divide

Shape separate from or combine with other shapes.

Flow: Parallel

Shapes flow in a parallel direction, no shape intersects.

Join: Hook

Shapes that have a hook-and-eye, causing them to interlock

Join: Overlap

Shapes touch or share space with each other.

Segment: Donut

Shapes cut into pieces but has a hole or hub in the middle.

Segment: Pie

Shapes cut into pieces with the centre pieces coming to a point.

Network: Flare

Network with a vertical or horizontal direction to it.

Network: Hub and Spokes

Network expanding from a central hub concentrically.

Network: Ring

Network connecting exterior shapes with each other.

Network: Spokes

Network expanding from a centre without a hub.

Stack: Horizontal

Collection of shapes stacked horizontally.

Stack: Vertical

Collection of shapes stacked vertically.

PIKTOCHART.COM

INFORMATION IS A 2-WAY HIGHWAY

2011 - Piktochart is among the first online web applications to autonomize the creation of infographics. Its vision is to allow the user the flexibility and control over what information will be viewed online.

Why sit and read passively, when you can actively interact with information?

This important infographic is brought to you by Piktochart and Wikipedia.
